

# Community Transport

## **OVER 50 SUCCESSFUL YEARS OF PROVIDING SERVICES AND SUPPORT TO LOCAL COMMUNITIES**

Community Transport is a national charity delivering three very different services to local communities. These are promoted under the following distinct brand names in the Midlands, North West and North East.

### ***'Providing second-hand furniture at affordable prices'***

CT Furniture is the name given to our domestic furniture service that supplies donated second-hand furniture through our warehouse and shop network in the West Midlands and North East of England. We collect donations of furniture from members of the public. These include beds, sofas, 3 piece suites, electrical goods, tables, chairs, etc., collected from people's homes, free of charge.

We also collect surplus or end-of-line stock from retail furniture stores, distribution centres, offices and hotels. We do all of this in order to provide all types of furniture at great prices to families on lower incomes, and to individuals at transitional stages in their lives.

Your donations also give people work, training, volunteering opportunities and help support our costs of running the service.

### ***'Providing a caring and specialist transport service to improve people's quality of life.'***

CT Passenger Services delivers accessible minibus transport to communities across West Midlands, North East and North West. We hire minibuses to community and voluntary groups - with the choice of your driver or ours. We also operate service contracts for local authorities, schools, the NHS and other statutory and voluntary bodies. Across the country, we also operate dial-a-ride and shopping services for community groups.

We are one of the country's largest suppliers of transport training, delivered by employed or associate trainers, based in the Midlands and the North. Our courses include:

- MiDAS minibus driver training
- PATS passenger assistants
- PCV D1 minibus qualification
- Safe Van Driving
